INTRODUCTION

Introduction

I'm a passionate creative technologist who believes in the power of merging artistry with innovation. My journey began with a fascination for how design and technology could create meaningful experiences that resonate with people. What drives me is the intersection of creativity and functionality—crafting solutions that are not only visually stunning but also purposeful and user-centric. Every project is an opportunity to push boundaries and explore new possibilities.

Where we are

Help businesses look their best and grow stronger.

Where we want to be

Help brands everywhere shine with powerful designs and digital products

Even if you are just one, remember – one spark starts the fire, one drop begins the ocean, one step begins the journey. If you are the only person building, don't give up – because greatness often starts alone.

—Abdul Rahiman Hotgi

Behind of all things

“Hi, my name is Abdul Rahiman Hotgi. I’m the person who creates all these things, and I’m currently studying in VVP Polytechnic, second year diploma. Thank you for viewing my presentation.”

I want to grab millions of audience

MY DREAM

A minimalist room with a light beige wall and floor. Two large, white, multi-paned windows are on either side of the center. A spotlight from a dark green fixture at the top center illuminates the text. In the bottom left, there is a teal chair on a wooden tripod stand next to a potted plant with long green leaves. In the bottom right, there is an orange chair on a wooden tripod stand next to another potted plant with long green leaves.

**Thank You
Everyone**
